

stranger danger

My friends have very important advice!
Listen carefully.

we all have the right to feel safe all the time!

how do you know when you are feeling safe?
how does your body tell you you're scared?

there's nothing so awful that you can't talk to someone about it

so who can you tell?

people I know I can talk to...

my friend _____ other _____

at school _____ at home _____

my neighbour _____ my family _____

Write down the telephone number of people you know you can contact
