

A Visit to the Child Development Unit
This is the outside of the hospital.

This is the inside of the hospital. Mum/dad will show me where to go.

This is a long corridor and the stairs. There is a big teddy at the top of the stairs.

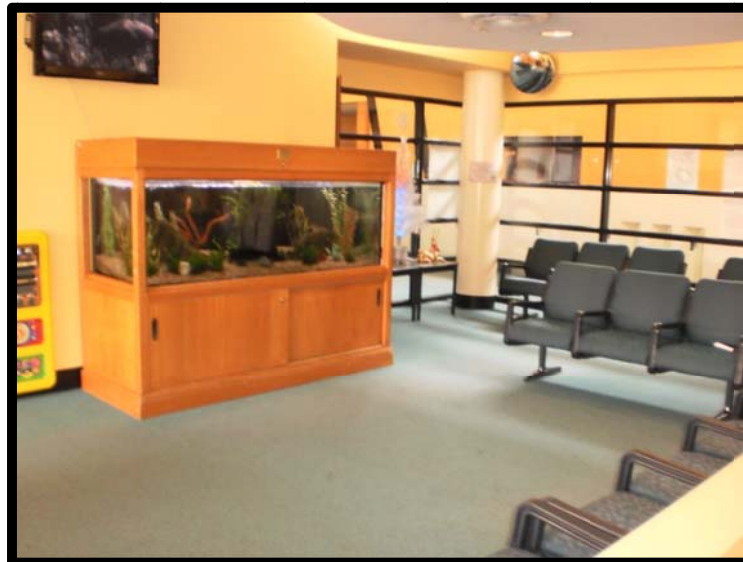

You will find the Child Development Unit located within the Children's Assessment Centre.

When you get to the Children's Assessment Centre you will be greeted by a clerk at the front desk. Please have your appointment letter and Medicare card ready.

Take a seat and use our play area while you wait to be called by the clinical team.

Now it's time to see the Psychologist, Speech Therapist, Occupational Therapist and or Doctors to talk and do some activities.

We will check how much you weigh and how tall you are as well as your heart beat and measure your head. This will be done by your doctor.

Now it's time to have a break. You will have something to eat and maybe play outside or go to the Starlight Room for about an hour.

Then you will come back to the Child Development Unit for a chat and to talk about all the good things that you did in the morning. There will be a lot of talking with the adults and then it will be time to go home.
